Eriko Iwashita

Full-Stack Developer | React, Next.js, TypeScript, Node.js
Edmonton, AB | erikoiwashita@gmail.com | kellybytes.dev | github.com/KellyBytes | linkedin.com/in/erikoiwashita

PROFESSIONAL SUMMARY

Full-Stack Developer with a background in mechanical engineering and Japanese-English patent translation. Built and deployed 20+ web applications with React, Next.js, TypeScript, Node.js, and Express, including REST APIs, OAuth, and Stripe and PayPal checkout. Uses Claude Code to automate content and development workflows and verify each change before publishing. Open to front-end or full-stack developer roles in Edmonton, AB, or remote within Canada.

TECHNICAL SKILLS

Languages | JavaScript (ES6+), TypeScript, HTML, CSS, Python
Frontend | React, Next.js (App Router), Tailwind CSS, Responsive Design
Backend | Node.js, Express, REST APIs, Prisma, Mongoose, JWT, NextAuth.js (OAuth), Server Actions
Database | PostgreSQL, MongoDB
Testing | Jest, Supertest
Tools | Git (feature branches, pull requests), GitHub, Chrome DevTools, Lighthouse, Swagger, Figma, Claude Code
Cloud & Services | Vercel, Netlify, AWS Amplify, Firebase, Render, Stripe, PayPal, Contentful, Upstash
Spoken Languages | English (professional), Japanese (native)

PROJECTS

Real Estate Marketplace | *Next.js, React, Tailwind CSS, MongoDB, NextAuth.js, Mapbox, Server Actions*
- Built a full-stack property listing platform with secure server-side data mutations through Server Actions
- Created a responsive Tailwind CSS UI with location search, property type filters, pagination, and image galleries
- Implemented Google OAuth with role-based protected routes via NextAuth.js, plus bookmarking and owner messaging with read/unread status
- Integrated Mapbox for interactive property maps with geocoded listing locations

Kelly's Notes: Content Platform & AI Authoring Pipeline | *Next.js, React, Contentful, Node.js, Claude Code*
- Developed a technical blog on Contentful CMS with separate Rich Text and Markdown rendering pipelines, keeping draft previews out of the shared server cache
- Automated authoring with Claude Code skills that draft from a version-controlled template, run each article's code, and check claims against primary sources
- Added pre-publish validation that diffs every change before it reaches the CMS and stops the push when two articles conflict on a shared entry

E-commerce Web App | *Next.js, React, TypeScript, Stripe, PayPal, Server Actions*
- Built a full-stack e-commerce platform with a product catalog, shopping cart, and checkout flow
- Implemented server-side payment processing with Stripe and PayPal, including webhook handling

ProjectHub REST API | *Node.js, Express, MongoDB, JWT, Swagger, Jest*
- Built a RESTful API for project management with JWT auth, role-based access, rate limiting, and input validation
- Documented endpoints with Swagger UI and wrote API tests with Jest and Supertest

PROFESSIONAL EXPERIENCE

Independent Developer | Self-Directed | Edmonton, AB | 2025 - Present
- Built and deployed 20+ projects, from React front ends to full-stack Next.js apps with auth and payments
- Run Lighthouse accessibility audits on projects and fix issues such as low color contrast and missing ARIA labels

Patent Translator | Self-Employed | 2017 - 2025
- Translated 160+ patent specifications in mechanical, electrical, and software domains
- Worked with engineers and patent attorneys to keep technical terminology accurate and consistent

Technical Support Engineer | LMS Japan
- Installed CAD and signal analysis software and ran on-site benchmarks for automotive and manufacturing clients
- Led customer training sessions; localized and tested software interfaces and documentation for the Japanese market

EDUCATION

Tokyo Metropolitan University (formerly Tokyo Metropolitan Institute of Technology)
Master of Engineering - MEng, Mechanical Engineering
